## **Deliverables/1**

*Pin-up: April 10-11*

Scope: site strategy demonstrated on a 100m x 100m land parcel

Deliverables:

- Site analysis: mapping of invisible forces – min. 2 to 4 gradient maps (2D and 3D) of larger site area quantifying natural or cultural forces shaping the site; chosen forces should be relevant to design strategy;
- FEW's practices: illustrations of selected FEW's practices, including technical and dimensional aspects, and case studies of innovative use of FEWs in architectural projects;
- Site Plan: plans and sections at 1/500 scale, including immediate context;
- Physical model: 100m x 100m site model with demonstration of FEW's design strategy at 1/500 scale (20cm x 20cm);
- Documentation of design process: diagrams, illustrations, maps, intermediate design steps, research material, including photographic documentation of physical models;

Format

Drawings: A1 or A3 (tiled) color prints

Physical models: laser-cut, digital printing, cast material, folded cardboard, other techniques.

Please note: all material should be presented in digital format – original hand-drawings should be scanned and printed. Deliverables must be posted on studio blog as individual boards in PDF format (min 150dpi - max 5MB each) in order to complete assignment.

Assessment/Grades: 10% of final grade
